

## **Did you know we can listen to the intelligence of your body!**

At NutriPath Nutrition, we use a technique called Nutrition Response Testing<sup>SM</sup>, a type of muscle testing that is very precise in its ability to uncover what is contributing to your compromised health. We take your health and your concerns very seriously and we want you to have clear answers as to why you feel like you do. Not only do we provide answers, but we offer you a path to wellness.

**My** name is Vivian Dusina. I am a Nutritionist and before I became a Nutritionist, I worked in the healthcare field for many years. What I found is that there is a shift occurring—a shift away from covering up symptoms, to wanting to uncover the reasons for our pain or discomfort. Drugs manage symptoms, but they do nothing to change the disease process itself. How many of you have asked your doctor what supplements you can take to help your condition? What kind of an answer did you receive? If you are like me and the hundreds of patients I've spoken to, they weren't given much of an answer. They were told that there is nothing they can do to improve their health naturally. At NutriPath Nutrition, we provide you with the nutritional guidance you are looking for.

**We** don't guess at what is going on, we test! If you have not experienced Nutrition Response Testing<sup>SM</sup> before, you are in for a treat! For those patients whose health has been turned around using our techniques, they have come to depend on us to give them clear answers as to why they are in trouble. With our testing we can scan you for nutritional deficiencies, heavy metal exposures, toxins, immune challenges and food intolerances. And at NutriPath Nutrition, we go even deeper than most Nutrition Response Testers. We also test for common metabolic disorders. For example, we can test for a B12 deficiency that can cause a build-up of Methylmalonic acid in the urine which can cause frequent urination. We also routinely test to see if the fats in your body are being oxidized by inflammation. Those are just a few example of our metabolic testing. With our system of testing, we have helped hundreds regain their health.

**When** conventional medicine fails to find answers for your discomfort, we excel at uncovering the answers. Many of our patients have gone to multiple doctors before they came to us, They went from doctor to doctor to try to find help. They have been through a battery of test and the test all came back normal—normal blood work, normal CT scans, normal MRI, etc. But the patient knows that there is something wrong, so they keep searching and end up coming to us. Most conventional blood tests don't show that you have a nutritional deficiency. CT scans and MRI's only show anatomical abnormalities. It wouldn't show if your thyroid is malfunctioning because of chlorine toxicity, or heavy metals. Those tests wouldn't show that your back and neck are in pain due to metabolic toxins building up in your spine and damaging it. It also wouldn't show if you have a parasite living in your knee that is causing pain. For those answers, you need to come to us.

**Think** you need surgery? Or that only traditional medical care (prescription drugs) is the answer? Think again! We have helped many avoid knee, back, neck and other surgeries. Ask us how!

The following is a list of health issues that we have helped our patients address:

- Back and Neck Pain
- Frequent Urination
- Constipation
- Weaning off of MiraLAX
- Acid Reflux and GERD
- Indigestion, bloating and gas
- Headaches
- Migraine's
- Thyroid disorders
- Tinnitus (Ringing in the Ears)
- Frequent Sinus pressure or infections
- Plantar Fasciitis
- Restless Leg Syndrome
- Carpal Tunnel Syndrome
- Acne
- Menstrual Irregularities
- Infertility
- New onset of neurological symptoms
- Unexplained Dizziness
- Hypertension
- Psoriasis
- Autoimmune Diseases—including Hashimoto's Thyroiditis, Rheumatoid Arthritis, Sjogren's, Interstitial Cystitis, Polyarthrits Nordosa, Lupus, Vasculitis, Diabetes, and more.
- Gallbladder attacks
- Non-alcoholic Fatty Liver Disease
- Hyperlipidemia
- Heart Palpitations
- Hair Loss
- Brain Fog and Poor Memory
- Prostate Issues
- Knee Pain
- Torn Ligaments
- Fibromyalgia
- Adrenal Fatigue
- Shoulder Pain
- Unexplained Nausea or Vomiting
- Neuroma's in the hand or foot
- Poor Wound Healing
- Visual Disturbances
- Macular Degeneration
- Hot Flashes
- Difficulty Sleeping
- Torn Ligaments
- Prostate Problems
- Fungal Infections
- Detox from Heavy Metals or Toxins

- We can help you detox from heavy metals like lead, mercury, cadmium, aluminum and more.**
- We can clear toxins, pesticides, chlorine, fluorine, and other contaminants.**
- We can help with metabolic disorders such as anemia, homocysteinemia, B12 deficiency, Hypercholesterolemia and more.**
